

Pack a Sack is up and running and we've been delivering for a few weeks now.

Town n'Country and Dickenson are both at 30 kids per Week, which has been steadily increasing each week.

The start of a new school year is a lot for the School Administrators, so it takes a while to determine who from the program has returned, new students in need, etc., so the process to add children is a bit involved on their end. Shaun works closely with the schools to communicate needs and increases and provide the support they need.

I have met with Community Montessori School and they are on board for collecting food items again this school year. They were a wonderful partner last year and part of our Kids helping Kids; campaign so we are thrilled to have their support again this school year.

What a blessing to have them as neighbors and partners.

*A big thank you to both our corporate sponsors for their continued generous support of this ministry. We are so grateful for their love and support.*

PS: We are happy to welcome Linda Wehr to the pack a sack Team... Welcome Linda!
